

inside panel

NOTE: this panel is .125" (1/8") narrower than the other two panels to allow for folding

25.5" x 11" Tri-fold Brochure

Folded size = 8.5" x 11"

OUTSIDE GUIDE

(to create the inside of your brochure, download the [INSIDE GUIDE](#))

This layer is to be used as a guide only.
Delete this layer before submitting
your project for printing.

← BLEED

Extend images, photos and solid backgrounds 1/8" beyond the edge of the page to allow for trimming.

← TRIM

Indicates the edge of the page.

← SAFETY MARGIN

Keep all text and other critical information within 1/4" of the edge of the page.

OTHER INSTRUCTIONS

Please ensure all images are 300 dpi at the final size for proper printing resolution. See our tech tips section for more information on printing resolution. Please ensure all images are CMYK.
